

Attention All Yuppy Puppy Guests!

Bordetella Loves Humidity and Flu season!
Just a reminder:

***WE DO NOT MANUFACTURE BORDETELLA OR (THE CANINE
COMMON COLD) HERE... SOMEONE HAS TO DELIVER IT!***

Just like child daycares, workplaces and airplanes, etc. with kids and adults getting the 'cold', our dogs get too.

- Canine Cough and Bordetella should not be life-threatening, just uncomfortable.
- Canine viruses can be caught at the dog park, pet store, through your neighbor's fence, and on your daily walk.
- **WE DO NOT MAKE CANINE COUGH OR BORDETELLA HERE- IT IS BROUGHT IN...**
- All our dogs are vaccinated for Canine Cough/ Bordetella- but like the flu- can still get it in some form (usually lighter).
- If a dog is showing symptoms we reserve the right to ask the dog to stay home until we have clearance from their vet.
- Please do not bring your dog if they are showing symptoms.
- Please talk to staff or your Vet with any concerns or more information.
- For more information on our boarding rooms and ventilation and air purifying please ask our staff.

THAT IS WHY:

Every guest is required to be vaccinated against it. We have Air Oasis Pro air sanitizers throughout our facility, to minimize cross-contamination, along with our standard cleaning protocols.

Thanks for understanding!
